

National Fire Plan

Managing the Impact of Wildfires on the Communities and the Environment

Rhode Island State Summary from Department of the Interior

Based on the National Fire Plan, the Department of the Interior (DOI) will implement a number of program actions to reduce hazardous fuels and their adverse effects on forest and range lands, mitigate the impacts of severe wildfires on rural communities, and enhance firefighting capabilities. In Rhode Island, those actions will include the following:

Hazardous Fuels Reduction

Treat fuels on a minimum of 38 acres to reduce the wildland fire threat to communities in wildland-urban interface areas or to maintain/restore range or forest health - \$8,000

Community Assistance

For FY 2001, the DOI was appropriated \$10 million to initiate a pilot program of grants to rural fire districts. The Department expects to assist approximately 830 rural volunteer fire departments nationwide with training, equipment, and supplies to increase their level of preparedness for wildland firefighting.
